CONSTRUCTION IMPACT NOTIFICATION

This Rider contains conditions that are material to your decision to enter into a License Agreement. Please read this Rider carefully. Your execution of the License Agreement will indicate your agreement with and acceptance of the following provisions and the Rider shall be incorporated into and become a part of your License Agreement.

RIDER TO MIT GRADUATE STUDENT HOUSING LICENSE AGREEMENT

The following terms and conditions are attached to and incorporated by reference into your License Agreement as entered into hereby. In the event of any inconsistency or conflict between the terms and conditions of the License Agreement and the following terms and conditions, the following terms and conditions shall apply.

During the current term of your License Agreement through approximately July 31, 2023, MIT Housing & Residential Services anticipates that the following construction work will be undertaken in or adjacent to your Building. Except in emergency situations or unless otherwise noted, the construction work is expected to take place as indicated below. Non-emergency work within residential units will be scheduled on an as-needed basis, generally not before 8:00 am. Notwithstanding the foregoing, please be advised that public agencies and commercial property owners/developers may perform work outside of the work hours specified in this Rider. This includes work on Main Street and Third Street in the City of Cambridge.

Please note that the construction work and schedules listed below are preliminary only and will be subject to modification at any time. MIT reserves the right to change the scope and/or schedule of the construction work and initiate additional projects and repairs at any time beyond the scope and schedule of projects described below. In the event of any material changes or additions, MIT will use reasonable efforts to provide notification to residents in a timely manner.

70 Amherst Street (70 Amherst Street, Cambridge, MA 02142 – Building E2): 2 Total Construction Riders

1. **Kendall Square Initiative – General**

   Construction on the Kendall Square Initiative is anticipated to continue through 2025.

   A project to replace the head house and access to the inbound Kendall/MIT Massachusetts Bay Transportation Authority (MBTA) station is underway and may create some construction impacts on Carleton, Amherst and Main streets and localized construction noise. The inbound MBTA station will remain operational throughout construction of the new head house, however, there will be changing patterns of ingress and egress.

   Primarily interior work will be taking place on the newly constructed buildings 238 Main Street (Site 3) and retail spaces, 45 Hayward Street (Site 4) retail spaces, and 314 Main Street (Site 5). Delivery and construction vehicles may be visible or heard from surrounding streets.

   Removal of the Eastgate tower at Main Street and Wadsworth Street began in the spring and will continue into Fall 2022. This project will consist of major demolition work, causing significant noisy and potential vibration-related conditions. After the building is removed, work will begin on
construction of a 13-story-building and underground parking garage which will create construction noise. Both projects include the operation of large construction equipment such as cranes, lifts, concrete trucks, and trucks removing material, carrying steel and other construction materials. Construction vehicles and equipment will be traversing Main Street and other local streets to and from this site.

Project hours for the Kendall Square Initiative are expected to generally follow the City of Cambridge construction work hours of 7:00 am to 6:00 pm, Monday through Friday and 9:00 am to 6:00 pm on Saturdays. Some City-permitted, after-hours work will be required to accommodate concrete and steel deliveries, as well as other activities.

For more information about the Kendall Square Initiative, to subscribe to regular updates or submit comments to the project team, please visit http://www.courbanize.com/projects/mit-kendall-square. If you have any questions regarding this project, please contact the project team via e-mail at kendsq-info-site4@mit.edu.

2. **East Campus Renovation Project**

East Campus (Buildings 62 and 64) will undergo a multi-year renovation beginning in June 2023, with an anticipated completion date in Summer 2025. There will be some site exploration work prior to the renovation, that includes excavation to expose underground pipes to evaluate their condition and elevations for future connections. There may be some exploration work of the building envelope resulting in low noise levels.

Site mobilization will begin after both buildings go offline following MIT’s 2023 Commencement exercises. Impacts from these activities may include increased truck traffic, additional beeping from back-up alarms, and noise generated by machinery. The project may also use additional lighting as needed on site after sunset. Reasonable efforts will be made to notify residents in advance of planned activities.

If you have any questions, please contact Housing & Residential Services via e-mail at 70amherstquestions@mit.edu.
