Division of Student Life
Hazing Prevention and Education Committee

Purpose

- To promote the practice of welcoming new students and organization members in ways that support student engagement and enhance the student experience.
- To reduce incidents of hazing behaviors in the MIT community.
- To educate students about hazing so that they are aware of behaviors that constitute hazing.
- To build bystander intervention and helping skills among students.
- To assist student organizations in evaluating group practices related to hazing and welcome programs.
- To identify resources available to support hazing prevention, including reporting structures and program development.
