Purpose of the Dining Study

- Create a residential and retail dining landscape that maximizes choice, provides value, and addresses the needs of undergraduates and graduate students.

- Enhance the undergraduate residential dining experience that include options for flexibility and portability.

- Explore the potential of using meal plans across campus.

- Improve food quality.

- Foster community building.

- Increase dining participation.

- Identify a potential financial model that generates a sustainable and strong dining program.

Undergraduate Results
Deciding Where to Eat - Most Important Factors for Undergraduates

Please rate each attribute with regard to its importance to you when deciding where to go for a meal or snack. "Very important" or "Somewhat Important"

- It is in walking distance at meal time: 93.57%
- The pricing is fair/keeps good value for the money: 91.96%
- I am able to order, receive, and pay for food quickly: 88.00%
- I can purchase "to go" if I desire: 78.97%
- It serves a wide variety of food offerings at one location: 69.20%
- It serves made-to-order food that I can customize to my preferences: 63%
- It is a place to meet and socialize with friends: 58.9%
- It has a comfortable dining environment: 48.4%
- It meets my dietary requirements: 47.82%
- I can use my meal plan: 47.68%

N~1,300
Deciding Where to Eat - Least Important Factors for Undergraduates

Please rate each attribute with regard to its importance to you when deciding where to go for a meal or snack.

"Very important" or "Somewhat Important"

- It offers organic foods: 18.47%
- It offers locally grown food: 17.98%
- It is a locally owned restaurant: 12.59%
- I can order in advance (app, online): 11.74%
- It is located off campus so that I can take a break from campus: 5.76%
- It is a regional or national brand: 5.74%

N~1,300
88.4% of Survey Residents with House Dining indicated they are in Zone 7 most of the time between 10:30 a.m. - 2:00 p.m.

Approximately 50% of meal plan holders purchase a meal plan that does not provide lunch. Consequently, it is not surprising that approximately 29% of survey respondents that are Undergrads living in House Dining units tend to skip lunch.

- Purchase on campus at a food truck: 0.48%

envision strategies
Opportunities

• Meal Plan Concepts
• Residential Dining Program
• Retail Dining
• Cook for Yourself
• Grab ‘n Go
• Late Night – 24/7
Meal Plan Concepts

**Opportunities:**

- CFY Meal Plans**
  - Smaller block meal plans with Dining $
  - Dinner only plans
  - Lunch only plans
- Residents in House Dining
  - Hybrid plans with Dining $
  - Block plans with Dining $
  - Unlimited Access
  - Consider having the 19 meal plan a voluntary option for Maseeh first year students, instead of mandatory.

**NOTE:** In response to a question at the DormCon meeting, it was clarified that these plans would be optional.
Residential Dining Program

- Approximately 50% of meal plan holders purchase a meal plan that does not provide lunch. Consequently, it is not surprising that approximately 29% of survey respondents that are Undergrads living in House Dining units tend to skip lunch.

- Of those dining in an on-campus café, 44.7% of the Ugrad On Res with Dining are patronizing a café in Zone 7, which as noted earlier, most of these venues may have insufficient seating for its guests.

- 59% of meal plan holders positively indicated that they would like a lunch option that provided 4 or 5 select items from a Grab & Go Station on Main Campus (east of Mass Ave).

- Approximately 58% of meal plan holders expressed an interest for Dining Dollars to be included with their meal plans.
Retail Dining

**Opportunities**

- The 2008 and 2017 surveys showed that 71% and 72% (respectively) of the Total Respondents are in Zone 7 for the majority of the 10:30 a.m. - 2:00 p.m. timeframe. Although there are now 7 retail locations in Zone 7, excluding the Food Trucks, one is for faculty only, and there is not enough seating capacity for the demand.

- 40% of the Survey Respondents (n=3,196) indicated that a 24-hour dining location on campus would best meet their needs if located in Zone 7. It would be used the most on weekdays throughout the day, but many would use it after 9:00 p.m.

- 80% of the respondents (n=360) that typically eat lunch off campus are doing so because they ‘prefer the quality/taste of the food available off campus in comparison to food available on campus’. Of these respondents, 62% are Graduate Students.

- 45% of Graduate Students respondents are in Zone 7 for the majority of the 5:00 p.m.- 8:59 p.m. timeframe when there are no campus retail locations open in this zone.
Retail Dining

Opportunities

- For MIT students, the top motivating factors for deciding where to purchase a meal are ‘It is within walking distance at meal time’ (94.2%) and ‘The pricing is fair/provides good value for the money’ (92.6%).

- Based on its location and with some dining infrastructure in place, consideration should be given to creating a new dining location at Walker to serve the midday and evening uncaptured markets.
Cook For Yourself

**Opportunities:**

- Cook For Yourself (CFY) survey respondents would use a pantry where they could purchase *Grocery or Market Items* to prepare their own meal.

- 49.2% of the CFY respondents indicated they would use a Grab & Go Station that provides 4-5 items for a fixed price or swipe if it is located east of Mass Ave.

---

How likely would you be to use the following features if they were available on campus this semester? *

</table>

* Responded “very likely” or “somewhat likely”
Grab ‘n Go

- Meal Plan Grab ‘n Go concept for a swipe or fixed price for lunch only, on Main Campus, east of Mass. Ave., which the vendor could operate as part of the residential dining program.

**Pros:**
- Minimizes the need for students to skip lunch and provides an opportunity for CFY residents to purchase a complete meal.
- This venue may serve between 1,100 - 1,200 Undergrads during a peak meal.
- Does not require dedicated seating.
- Satisfies the desire to have a convenient dining location at meal time for Housing Dining residents.

**Cons:**
- Finding an appropriate and large enough space on east campus for this desired service.
- Will require some additional staffing and card readers or registers.
- Real estate will only be used for one meal period, unless a breakfast option becomes available.
Grab ‘n Go Opportunity Space Requirements

- Meal Plan Grab ‘n Go lunch concept assumptions:
  - 30% House Dining Residents use for lunch (Approx. 725; 30% use Maseeh, 30% use Retail)
  - Since 59% of CFY survey respondents expressed interest, estimate around 30% of CFY residents may use on any given day if allowed to pay cash, credit, or debit. (Approx. 433)
  - Fresh product is produced in one of the House Dining kitchens and transported over daily.
  - Some storage is provided on site to keep products at the proper temperatures.
  - Dedicated seating is not provided.
  - All product is served on disposables or in re-usable containers.
  - Service is available 10:30 a.m. - 2:30 p.m. Monday through Friday.
  - Menu selection will consist of a minimum of 4 items - one each from the following categories:
    - Entrée: Sandwich, entrée salad or other item
    - Side: Small side salad, composed salad, chips, bread/roll, or carrots/celery sticks, etc.
    - Dessert: Cookie, brownie, fresh fruit, or other item
    - Beverage: Fountain Soda - perhaps freestyle machines, iced tea, coffee

- Estimated space requirements are 2,000 Net Square Feet (NSF)
- Discussion points that may affect space requirements:
  - Should only students with meal plans be allowed to use this venue?
  - If not, what will be the interest from FSILG, off-campus Undergrads, graduate students, faculty and staff?
  - Bottled beverages vs. fountain drinks
Late Night - 24/7 Dining Program

Opportunities:

- Respondents who live in a house with dining indicated the meal plan options for late night (after 9:00 p.m.) that would best meet their needs:
  - Grab & Go Station (near house dining checker station) to select 4 to 5 items for a meal swipe and take it to go (50.3%)
  - Inclusion of Dining Dollars to purchase in on campus retail locations (48.1%)
- Meal plan holders indicated they would be willing to spend $24.88 (mean) per semester to have a 24 hour location on campus where they could use their meal plan.
- Building 50, Walker, contains an abandoned food service facility that has some infrastructure in place and is located in the desired Zone 7.
  - Further discussion and analysis is merited to determine if an additional dining venue/market that will be patronized daily, throughout the day, serves the campus community better than using Morss Hall for periodic events.
24/7 Venue Space Requirements

- 24/7 Emporium/Pantry concept assumptions:
  - Approximately 50% of the student survey respondents indicated they would use it mid-day, while over 60% would use it after 9:00 p.m.
  - Self-contained venue with production, serving area, and support spaces.
  - Survey respondents estimated mean spend is $7.00 per meal or snack.
  - If it can capture 10% CFY residents and 5% of graduate students, may serve 720 during a peak meal.
  - Dedicated seating is provided - perhaps 232 seats, if one assumes 25% take their meal to go and a 70% seating efficiency.
  - All menu items are served on disposables or in re-usable containers.
  - Service may be available Monday through Friday, initially.
  - Menu items available will likely include:
    - Grill and Soup station
    - Hot and cold beverages
    - Popular convenience items (chips, power bars, etc.)
    - Select groceries and produce

- Estimated space allocation may be 8,600 NSF, of which 3,700 NSF is for seating.

- Discussion points that may affect space requirements:
  - Who is the target market and anticipated capture rate?
  - Type of seating and will it also serve as study space?
