Welcome to your first-year! Over the next ten months you are going to learn more than you ever thought possible, be challenged like never before, and experience more than you can imagine. FYE is here to help.

Congratulations Class of 2015!

Now that finals are done and you did your best we want to send you a quick note of congratulations!

In your mailboxes you should of received two small gifts to help you through your exams: a Rubik's cube to remind you that you have the tools to solve any challenge, and a notepad to carry with you as you move into your sophomore year. We want to remind you that even in your second year, FYE will be available for help and support as you navigate your college experience. These were small tokens, but we hope that when you use them they will remind you of all the big things you have accomplished this year.

Please know that you have lots of support around you always, whether you are living on-campus or off-campus. Your Housemasters, GRT, RA, RLA, and Academic Advisor are all available to talk should you need assistance and support. If you find yourself seeking immediate assistance please contact campus police at 617-253-1212 and ask to speak to the Dean On-call.

Finally, congratulations again on completing your first year at MIT. We hope you will take some time to reflect on the experiences you’ve had and the connections you’ve made. You are an important part of the MIT community, and we are very lucky to have you.

Have a wonderful summer,

Chris Colombo, Dean of Student Life

Julie E. Rothhaar, Assistant Dean First-Year Experience
