Charge to the Housing Strategy Group

The Housing Strategy Group (HSG) was developed to advise the Dean for Student Life (DSL) and the Dean for Graduate Education (DGE). Pursuant to the original charge, the group advised on a host of matters that emerged in association with our implementation of various capital projects and the implementation of the Task Force on Student Life. These issues range from developing residence hall rules to advice on rent schedules. The group also served as a sounding board to the deans on residence issues.

In recharging the Housing Strategy Group, its original advisory role remains unchanged. What has changed are some of the challenges the housing enterprise faces. The revised charge to the group is as follows:

1. Advise the DSL and the DGE on the residence policies, rents, and operations.

2. Advise the deans on the development of strategies to address recommendations from the Budget Planning Task Force related to utilization of housing during the summer and energy conservation.

3. Advise the deans on capital projects and strategies to address deferred maintenance.

The composition of the group remains unchanged and includes:

- The Undergraduate Association President
- 2 Graduate Student Council Housing Chairs
- An additional Graduate Student Council member
- The DormCom President
- The DormCom Vice President
- 3 Housemasters
- Director of Residential Programs
- Director of Housing Operations
- The Dean for Student Life serving as a Co-chair
- The Dean for Graduate Education serving as a Co-chair
