Visioning and Goal Setting Activity

Lead a conversation on visioning and goal setting with questions such as...

1. What is a vision/mission statement?
2. Why is it important for an organization or group to have a vision/mission statement?
3. How does a group go about meeting the ideals of their vision/mission statement? (Goal setting!)

Ask the students to close their eyes and visualize themselves 10 years from now back at MIT. They are reading the Tech. What do you hope to see (Tech activity). Is the organization flourishing?

We will go around and ask for some volunteers. Then ask them how they plan to make sure their organization if flourishing in the future when they are gone. What goals do they have now that supports their organizations vision/mission statement?

Pass around the attached handout. We will talk about how the individual's goals can also help accomplish the goals of the organization and support the mission.
